#04955

Net Price:
1.02 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), cat. 5e, toolless**

Modular male connectors are used for terminating wires in phone or computer installations. There also exists a shielded type of male connectors used for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3u" layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 5e

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, solid and stranded

Connector type: unshielded, toolless

#03834

Net Price:
2.41 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), cat. 6, shielded, toolless**

Modular male connectors are used for terminating wires in phone or computer installations. Shielded - for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3um layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 6

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, solid and stranded

Connector type: shielded, toolless

#04956

Net Price:
1.10 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), cat. 6, toolless**

Modular male connectors are used for terminating wires in phone or computer installations. There also exists a shielded type of male connectors used for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3um layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 6

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, solid and stranded

Connector type: unshielded, toolless

#03835

Net Price:
3.05 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), cat. 6A, shielded, toolless**

Modular male connectors are used for terminating wires in phone or computer installations. Shielded - for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3um layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 6A

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, solid and stranded

Connector type: shielded, toolless

#00882

Net Price:
3.84 USD
Unit: 100pcs**Modular male connector, 8P8C (RJ-45), flat, solid, cat. 5e**

Modular male connectors are used for terminating wires in phone or computer installations. There also exists a shielded type of male connectors used for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3u" layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 5e

Materials: polycarbonate, gold-plated phosphor bronze

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, solid

Connector type: shielded

#04912

Net Price:
0.099 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), round, solid, cat. 6**

Modular male connectors are used for terminating wires in phone or computer installations. There also exists a shielded type of male connectors used for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3u" layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 6

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, solid

Connector type: unshielded

#04913

Net Price:
0.143 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), round, solid, cat. 6, shielded**

Modular male connectors are used for terminating wires in phone or computer installations. Shielded type - for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3um layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 6

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, solid

Connector type: shielded

#07165

Net Price:
0.224 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), round, solid, cat. 6A, shielded**

Modular male connectors are used for terminating wires in phone or computer installations. Shielded type - used for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3um layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 6A

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, solid

Connector type: shielded

Maximum core diameter: 1.02mm

Operating temperature: -40° ÷ 125°C

#00881

Net Price:
3.95 USD
Unit: 100pcs**Modular male connector, 8P8C (RJ-45), round, stranded, cat. 5e**

Modular male connectors are used for terminating wires in phone or computer installations. There also exists a shielded type of male connectors used for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3u" layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 5e

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, stranded

Connector type: unshielded

#00897

Net Price:
0.112 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), round, stranded, cat. 5e, shielded**

Modular male connectors are used for terminating wires in phone or computer installations. Shielded type - used for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (3um layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 5e

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, stranded

Connector type: shielded

#04919

Net Price:
0.037 USD
Unit: pcs**Modular male connector, 8P8C (RJ-45), round, stranded, cat. 5e, short body**

Modular male connectors are used for terminating wires in phone or computer installations. There also exists a shielded type of male connectors used for environments with high level of electromagnetic disturbances. The body of a male connector is made from polycarbon, contacts from gilded phosphor bronze (6um layer of gold).

Type, contacts: RJ-45, 8p8c

Category: 5e

Materials: polycarbonate, gold-plated phosphor bronze

Contacts plating: 3u" Au

Cable type: round, stranded

Connector type: unshielded, short-body

#07408

Other phone accessories

UR connector, 100pcs/bag

UR connectors enable connecting wires without the need of isolation stripping. They are filled with gel, which protects wires from corrosion.

UR connectors should be used for wires with external coat up to 1.67mm in diameter and 0.4-0.9 wire diameter.

Made of transparent polycarbonate with a red clamp.

Purpose: connecting three wires
Maximum diameter of the external coat: 1.67mm
Core diameter: 0.4-0.9mm
Dimensions: 19x12x8.5mm (6mm after tightening)
Filling: hydrophobic gel, protecting against corrosion
Packaging: cardboard, 61x63x57mm

#01847
Net Price:
4.65 USD
Unit: 100pcs

UY connector, 100pcs/bag

UY connectors enable connecting wires without the need of isolation stripping. They are filled with gel, which protects wires from corrosion.

UY connectors should be used for wires with external coat up to 1.52mm in diameter and 0.4-0.7 wire diameter.

Made of transparent polycarbonate with a yellow clamp.

Purpose: connecting two wires
Maximum diameter of the external coat: 1.52mm
Core diameter: 0.4-0.7mm
Dimensions: 12x8.5x8mm (6mm after tightening)
Filling: hydrophobic gel, protecting against corrosion
Packaging: cardboard, 55x55x55mm

#01846
Net Price:
1.58 USD
Unit: 100pcs

UY2 connector, 100pcs/bag

UY2 connectors enable connecting wires without the need of isolation stripping. They are filled with gel, which protects wires from corrosion.

UY2 connectors should be used for wires with external coat up to 1.52mm in diameter and 0.4-0.9 wire diameter.

Made of transparent polycarbonate with an orange clamp.

Purpose: connecting two wires
Maximum diameter of the external coat: 1.52mm
Core diameter: 0.4-0.9mm
Dimensions: 15x10x8mm (6mm after tightening)
Filling: hydrophobic gel, protecting against corrosion
Temperature range: -30°C ÷ +70°C
Packaging: cardboard, 55x55x55mm

#04905
Net Price:
2.33 USD
Unit: 100pcs
